

What3words to Address Djibouti and Tonga

What3words has announced that La Poste de Djibouti and Tonga Post have joined the postal services of Mongolia, Côte d'Ivoire and Sint Maarten, in adopting their addressing as standard.

3 word addresses will provide both countries with an easy reference for international mail and quickly enable home delivery – something that has been out of reach for the majority of citizens until now.

Our new [logistics film](#) shows how 3 word addresses are helping delivery companies provide a more reliable and efficient service, wherever in the world they operate.
