# Cadcorp Moves to the Cloud

Cadcorp is offering their clients a cloud migration path. Customers can migrate their existing maintained licences into a Cadcorp cloud hosted and managed environment.

Cloud hosting technology is being rapidly adopted. There a number of benefits to hosting web mapping in the cloud and Cadcorp is offering packages that are adaptable to each organisation's IT architecture and requirements.

The cloud offering of Cadcorp includes hardware and software upgrades, together with map updates. Cadcorp is taking on the server administration and monitoring, backed by the Microsoft Azure SLA. Although in the cloud, the data can be interfaced with other cloud-based environments, onsite systems and databases. Also resilience, back-up and disaster recovery options are available.
