

# Esri Brings Operational Intelligence to 2017 DistribuTECH Conference

Esri, the global leader in spatial analytics technology, today announced its participation at the 2017 DistribuTECH Conference and Exhibition, to be held 31st January to 2nd February at the San Diego Convention Center.

DistribuTECH is the utility industry's annual electric power transmission and distribution conference. Esri experts will be on-site to demonstrate the ways GIS helps utilities improve operational intelligence. Esri and its partner network will host a complimentary reception for the geospatial community on Tuesday 31st January.

**Who:** Bill Meehan, Esri Utility Solutions

**What:** Presentation Series, Room 24A

**Where:** San Diego Convention Center, 111 W Harbor Dr., San Diego, CA 92101

**When:** 31st January – 2nd February 2017

## Tuesday 31st January

1:00 p.m. "The Future of Utility GIS"

3:00 p.m. "Allowing Utilities to Fully Leverage Their Data Using GIS"

## Wednesday 1st February

10:00 a.m. "Improving Data Quality Leveraging Spatial Technology"

## Thursday 2nd February

8:00 a.m. "Using GIS to Support Distribution Operations"

10:00 a.m. "Improved GIS and Network Data Management: A US and European Standards-Based Vision"

**31st January – 2nd February** Ongoing Live Demos, Including New Utility Network, Drone2Map for ArcGIS, System of Engagement, Insights for ArcGIS and GeoAnalytics, Real-time Operations – GeoEvent Server
