

# MobiLaps LLC Awarded Sole Source Contract for NASA

MobiLaps LLC (MD, USA) has been awarded a sole source contract from the NASA Goddard Space Flight Center to meet critical technical and schedule requirements of the Geospatial Interoperability Office (GIO) Program. Lead by Dr. Nadine Alameh, MobiLaps's™ vice president for GIS Solutions, MobiLaps, LLC will support the strategic analysis, development and implementation of geospatial interoperability standard architectures within NASA.

As part of the contract, MobiLaps, LLC will support the completion of Geospatial Interoperability (GI) standards development, test bed, and prototyping project implementations. MobiLaps LLC will also provide subject-matter expertise to both management and technical level communities in GI standards development of architectures and GI standards based solutions.

Furthermore, MobiLaps LLC will support GIO Program initiatives in both national and international areas such as GEO, USGEO, Climate Change, E-Government/Geospatial One-Stop, Earth Sun System Gateway in the interest of increased access, use, and understanding of NASA's™ Science data in support of Decision Support Systems and Tools for NASA, National Applications, Federal partners, and science & education communities. MobiLaps, LLC will also provide assistance in Systems Architectures with respect to the application of GI standards to NASA's™ Decision Support Systems as well as to NASA's™ Federal Partners Decision Support Systems under the NASA Applied Sciences Program National Applications.
